## ABOUT ME

I am an Information Systems student with a passion for web development, whether in **Front-End, Back-End, or Full-Stack Development**. I enjoy building websites from design to functionality and am always eager to learn new technologies to enhance my skills. I aspire to build a career in this field because I believe web development is not just about coding but also about creating effective and meaningful digital experiences for people.

---

## PROJECT EXPERIENCE

### Flower Shop Website Development | April 2024 – May 2024

#### Role: Front-End Developer

- Developed the front-end of a flower shop website using PHP, JavaScript, HTML, and CSS as part of a Web Programming 1 project.
- Designed and structured the user interface to display product listings and an order form.
- Implemented interactive elements such as dynamic content updates and client-side validations using JavaScript.
- Worked closely with back-end functionalities to ensure smooth data integration.

### Mie Odos Website | August 2024 – November 2024

#### Role: Full-Stack Developer

- Developed a responsive website for a local UMKM selling Mie Odos using HTML, CSS, JavaScript, Bootstrap, and Laravel.
- Created an interactive menu display, allowing users to browse available dishes and see the best menu recommendations.
- Implemented CRUD functionalities to manage menu items efficiently.
- Ensured a smooth user experience with a clean UI/UX and responsive design for various devices.

**Concert Ticketing Website | Oktober 2024 – Desember 2024**

**Role: Full-Stack Developer**

- Developed a responsive concert ticketing website using HTML, CSS, JavaScript, Bootstrap, and Laravel.
- Designed an intuitive UI for users to browse available concerts and purchase tickets easily.
- Integrated Laravel for managing ticket sales, user authentication, and database operations.
- Ensured a seamless user experience with a **mobile-friendly** design and smooth navigation.

**Recipe Sharing Website | Desember 2024 – January 2025**

**Role: Full-Stack Developer**

- Developed a recipe-sharing platform using Laravel, HTML, CSS, JavaScript, and Bootstrap.
- Implemented CRUD functionalities to allow users to add, edit, delete, and preview recipes.
- Added features for saving, sharing, and searching recipes to enhance user engagement.
- Designed an intuitive user interface for easy navigation and interaction.
