ABOUT ME

I am an Information Systems student with a passion for web development, including **Front-End, Back-End, and Full-Stack Development**. I take pleasure in developing websites from design to functionality and consistently seek to learn new technologies to improve my skills.

PROJECT EXPERIENCE

Flower Shop Website Development | April 2024 – May 2024

Role: Front-End Developer

- Developed the front-end of a flower shop website using PHP, JavaScript, HTML, and CSS as part of a Web Programming 1 project.
- Designed and structured the user interface to display product listings and an order form.
- Implemented interactive elements such as dynamic content updates and client-side validations using JavaScript.
- Worked closely with back-end functionalities to ensure smooth data integration.

Mie Odos Website | August 2024 – November 2024

Role: Full-Stack Developer

- Developed a responsive website for a local UMKM selling Mie Odos using HTML, CSS, JavaScript, Bootstrap, and Laravel.
- Created an interactive menu display, allowing users to browse available dishes and see the best menu recommendations.
- Implemented CRUD functionalities to manage menu items efficiently using Laravel and MySQL.
- Ensured a smooth user experience through a clean UI/UX and responsive design across various devices.

Concert Ticketing Website | October 2024 – December 2024

Role: Full-Stack Developer

- Developed a responsive concert ticketing website using HTML, CSS, JavaScript, Bootstrap, and Laravel.
- Designed an intuitive UI for users to browse available concerts and purchase tickets easily.
- Integrated Laravel and MySQL for managing ticket sales, user authentication, and database operations.
- Ensured a seamless user experience with a mobile-friendly design and smooth navigation.

Recipe Sharing Website | December 2024 – January 2025

Role: Full-Stack Developer

- Developed a recipe-sharing platform using Laravel, HTML, CSS, JavaScript, Bootstrap, and MySQL.
- Implemented CRUD functionalities to allow users to add, edit, delete, and preview recipes using Laravel and MySQL.
- Implemented features for saving, sharing, and searching recipes to enhance user engagement.
- Designed an intuitive user interface for easy navigation and interaction.
